

Early innovators – Investigation planner

An investigation to find out what happens to _____

<p>What are you going to investigate?</p> <p>Can you write it as a question?</p>	<p>What do you predict and why?</p> <p>Can you give reasons for your predictions?</p>
--	---

To make it a fair test what things (variables) you are going to

Change	Measure	Keep the same
How will you set up the investigation?	What equipment will you need?	

Record data in a table and graph using appropriate computer program.

Explanation of results

Write about what you found out about.

Evaluate your investigation

Did you have any challenges?

What might you change next time?

How could you improve this investigation to make it fairer or more accurate?
